

2020

Dear Share and Care Families:

Welcome back! We're excited to see those of you who returned and look forward when everyone else is back! All of us have been met with unprecedented times and are trying to adjust to a "new normal". Thank you for being patient as we navigate through this storm. Everyone at Share & Care appreciates the support of our drop off and pick up procedures, knowing its time consuming. We are here for our families and welcome any feedback on how the kids are adjusting to face masks, shoe removal, etc.

While Share and Care was closed the last two months new floors, walls, hand sanitizer stand, etc. were installed. The entire center from ceiling to floors have been cleaned and sanitized. This pandemic has created many challenges but as a team we can get through this!

As we move forward we are communicating with our licensing rep, health dept. and governmental bodies on our next step into the next phase. We will keep you informed as many changes can be expected.

God bless!
